- **Reliable and Prompt Support** by Rootways to help you solve any difficulties in using Free Gift Item extension.

2. HOW TO USE AND CONFIGURE

This section will show you how to configure Rootways Beanstream Payment Gateway Extension. It's very easy and fast!

2.1 General Settings:

To manage Beanstream Extension from Configuration Settings, do as follows.

Log in to **Admin Panel** and then click **System** → **Configuration** → **Rootways** (Left sidebar) → **Beanstream Payment Gateway**.

Below is the screen shot of Beanstream Payment Gateway Settings and also the detailed description of each setting option.

The screenshot shows the configuration interface for the Beanstream Payment Gateway extension. On the left is a sidebar with a 'Configuration' menu. The main content area is titled 'Beanstream Payment Gateway' and has two sections: 'About' and 'Settings'. The 'About' section features the Rootways logo and text explaining that the extension captures credit and debit card payments to a Beanstream account. It also provides the website (www.rootways.com), shop (www.rootways.com/shop), and social media links for Facebook, Google+, and Twitter. The 'Settings' section contains three configuration options: 'Domain Mode' (a dropdown menu currently set to 'Development'), 'Domain' (a text input field with a warning: 'Please enter domain name that you entered when you purchased this extension'), and 'License key' (a text input field with a warning: 'Please enter license key for this extension that was emailed by us to you after your purchase.'). Each setting has a '[STORE VIEW]' link.

- Domain Mode: Choose Live or Development mode.
- Domain: If Live Mode is selected, then enter live domain URL that was entered at the time of purchase of the extension or if you've selected Development Mode then enter development domain URL that you entered for the purchase of the extension.
- License key: Enter License key that was sent to you by Rootways shop via email.

2.2 Beanstream Payment Method Management:

This section will show you how to manage Beanstream Payment Method from Magento Admin Panel.

Go to **Admin → Configuration → Payment Methods → Beanstream Payment Gateway**.
