SAGE PAY PAYMENT MODULE FOR MAGENTO 2

INSTALLATION GUIDE

Version 1.0.0

- After purchasing the **Rootways Sage Pay Payment** extension you will receive an email from us with your Domain License Key. Use this Domain and License Key for activating extension for your Magento website. If you haven't received any email please contact our support team by emailing at help@rootways.com (**Note:** Please read our License [Terms and Conditions](#) carefully before using our products.)
- Use FTP Client (e.g. FileZilla or WinSCP) to upload all files and folders of the extension to your Magento site. After connecting to your website using FTP create “Rootways” directory under app/code/ then create “Sagepay” directory under app/code/Rootways.
- After creating directories, extract extension zip file and upload under app/code/Rootways/Sagepay directory.
- After uploading, run this command from SSH `php bin/magento setup:upgrade`
- Run this command from SSH `php bin/magento setup:static-content:deploy`
- After running above script, you can see Sage Pay payment method at payment method section of admin.

***NOTE:** If you are still having any issues or have questions about our extension, please feel free to email us at help@rootways.com with all your questions and we will be more than happy to assist you.
